On the left side, there is a dark sidebar with the Gemini logo and a list of navigation options: 'New chat', 'Search chats', 'Images', 'Library', 'Notebooks', 'New notebook', and 'Recents'. The 'Recents' section lists several document titles. A menu is open in the center of the screen, displaying various settings and features. The 'Personal Intelligence' option, accompanied by a person icon, is highlighted with a red rectangle. Other menu items include 'Activity', 'Import memory to Gemini', 'Avatar', 'Usage limits', 'Gems', 'Your public links', 'Theme', 'View subscriptions', 'Gemini Notebook', 'Media watermark', 'Send feedback', and 'Help'. ## Checking email and giving alert daily

New from Richie (11:36 AM): food delivery boxes are now installed — labeled and chained at the MR and HR entrances. He's asking for a resident notice telling people to use the boxes or give the driver buzzer access when they're not home.

Oct 7, 4:29 PM

One new strata-relevant email: **Gal Kaufman (UNA)** sent a noise variance notice at 4:06 PM — a concrete pour at 3588 Wesbrook Mall (BCR7 project) is approved for extended hours this **Friday, October 9, 7:00 AM–8:00 PM** (trucks from 7:30 AM; 8:00 PM is contingency only).

Oct 7, 6:02 PM

Since the UNA asked strata chairs to share Friday's noise variance with residents, I drafted a ready-to-post notice for you:

---

**NOTICE TO RESIDENTS — CONSTRUCTION NOISE VARIANCE, FRIDAY  
OCTOBER 9**
